

**USB Temperature Data Logger****General Descriptions:**

This product is widely used in food and pharmaceutical, cold chain transportation and other industries which conform to HACCP system.

It is smart, compact, with beautiful design, LDC display for convenient data/status checking. Large record capacity 32000 points. Data exchange with computer by USB with powerful and visualized data processing software. The software supports the system of WinXP, Win7, Win8, Win10, Mac (available soon). With button battery, easy to replace.

**Specification:**

Product Size: 80 x 25 x 12mm

**Technical parameters:**

Power Supply: Inner CR2032 battery or power supply via USB interface

Temperature Measuring Range: -20°C to +70°C

Temperature Accuracy:  $\pm 0.5^{\circ}\text{C}$  (-20°C to +40°C), others  $\pm 1^{\circ}\text{C}$

Resolution:  $0.1^{\circ}\text{C}$

Sensor: Internal NTC thermal resistor

Recording Capacity: 32000 points (max)

Recording Interval: 10s to 24 hour, adjustable

Communication Interface: USB

Protection: IP65
